i Thrashers brought off at least 2 more young - led one across front yard, up into smalled Deodar Cedar - where it sat in a last-year's nest for a time (late aft.) - at 7:40, they went across back yard to fence line by farthest sour cherry. Free. About 6:00 P.M.,

a Crow caught and killed one of young in meadow near holly tree, despite attacks from Mockers, Grackles, Thrashers, etc.

2 Grackle with just young. For perhaps 10 days, I have noted them feeding young in nest in cedar just inside Meadow's yard.

5-24-77 Tues. 62°-76° overcast early, then mostly sunny to mid-aft.; then overcast and promise of rain — wind SW, 5-15 mph.
